

### **Live Virtual Session Q&A Information**

Faculty have pre-recorded their sessions to avoid any technical difficulties. They will be present virtually during their presentation and will interact with learners immediately following via the "Questions" feature on the learning platform. Due to unforeseen circumstances in this unprecedented time, if a faculty member cannot be virtually present, all questions will be collected for one week, via e-mail to [info@npsymposium.com](mailto:info@npsymposium.com), post-presentation and provided to the faculty for response. In this case, all questions and answers will be posted for all to view with the available presentation.
