

## Guidelines for Poster Presentation Content & Display

### Content Review:

- Poster content must be submitted as a PowerPoint, Keynote or PDF file.
- Include any text, pictures, charts/graphs that will be on your poster.

### Commercial Bias:

- The Accreditation Agency reviews each presentation to assure there is no commercial bias.
- Educational institutions are not considered a commercial entity, therefore logos of educational institutions are permissible.
- Generic names must be used throughout the educational activity. If a brand/trade name is used in print, the generic name must also be included in parentheses.
- If you include pictures of any medical devices or brand name products in your presentation, the company logo and brand name must be obscured. (You can insert an appropriately colored rectangle on to the picture in the PowerPoint slide)

## Display Specifications:

- All boards are double sided
- 2 posters per board (1 each side) maximum
- Boards will be pre-numbered according to assigned poster numbers
- Maximum size of the poster is 8' horizontal x 4' vertical (unless alternate dimensions have been approved by the NNPS Program Committee)
- Pins or velcro are recommended for attachment
